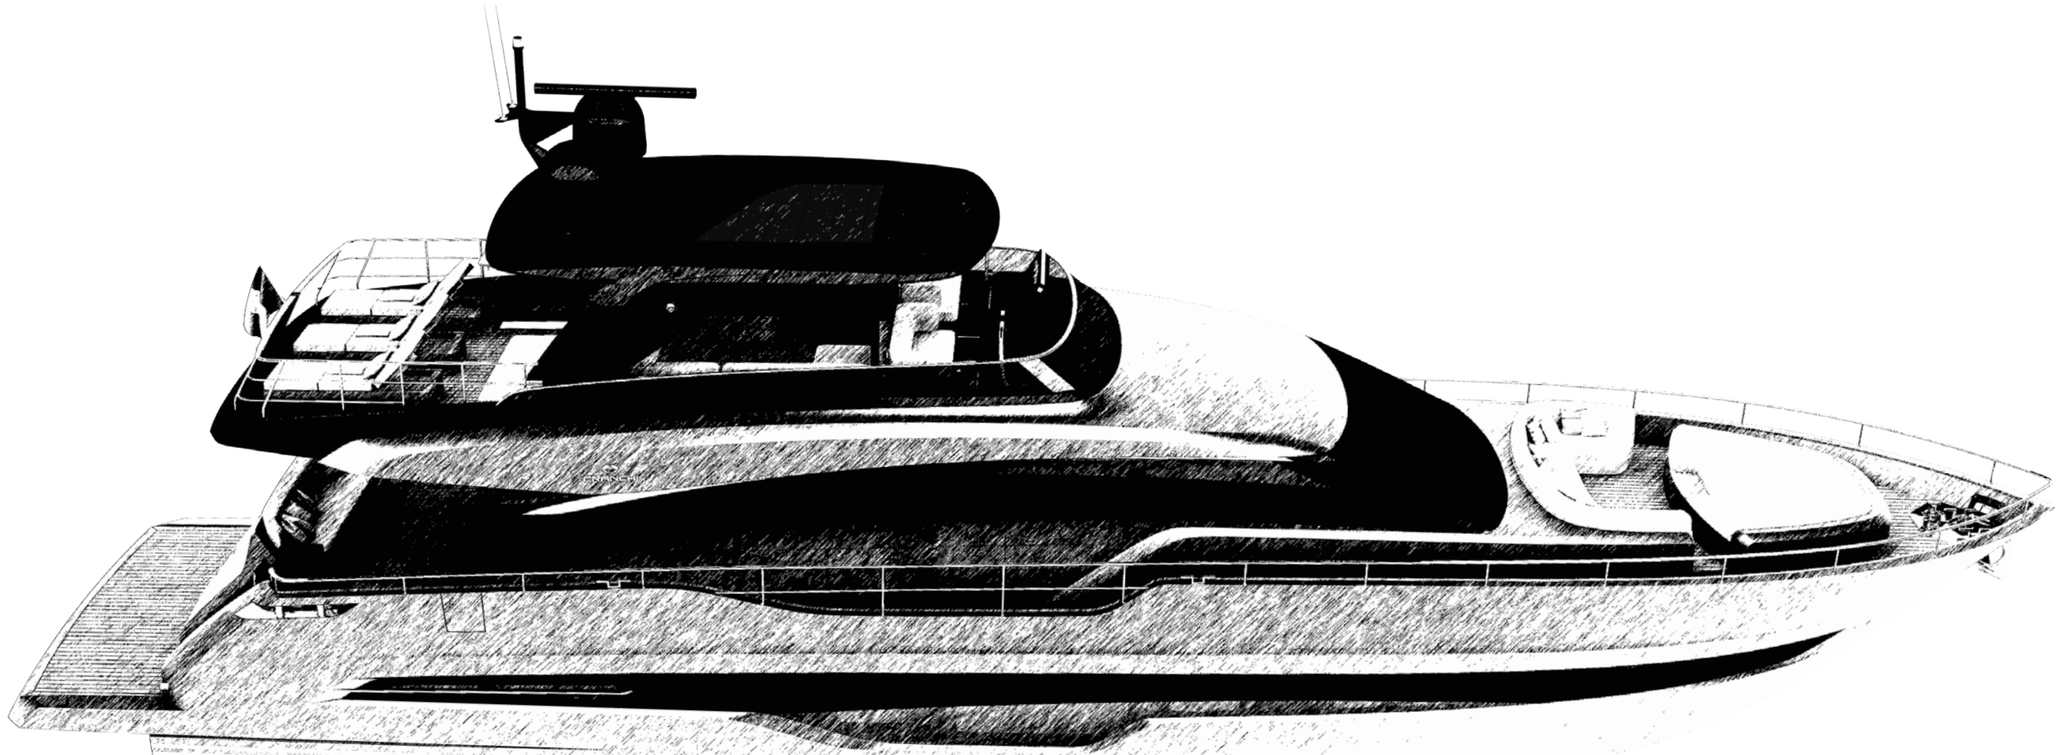
78 SETTANTOTTO

BEAUTY HAS A **NEW DIMENSION**

CRANCHI
Boatbuilder since 1870



78 SETTANTOTTO

From now on, Settantotto is more than just a number.
Settantotto is the new flagship model of Cranchi Yachts.

In its 24 meters, you'll find
ITS GRANDEUR AS A WHOLE AND THE IMPECCABLE ATTENTION TO DETAIL.

78
SETTANTOTTO

INTELLIGENCE IS BEAUTY. BALANCE IS STRENGTH.

The Settantotto's shape reflects the muscularity of a yacht that can handle the sea in any condition.
With its perfect hull, the high flared bow, and the secure and pronounced gunwale.

Rediscover the idea of timeless beauty that is both classic and modern.
The flowing lines of the Settantotto chase each other in an elegant and harmonious dance:

EVERY FORM IS ESSENTIAL, NO DETAIL IS SUPERFLUOUS, EVERYTHING IS IN BALANCE.

THE SETTANTOTTO IS A YACHT, AND IT IS MADE FOR SAILING.

The design choices never contradict its nature; they enhance it. There is always a rational and functional reason for the design choices: a pragmatism that takes nothing away from its beauty and, instead, accentuates it.

THE SPACES ON BOARD THE SETTANTOTTO
TELL A STORY,
AND ARE READY FOR NEW ONES.

These are the places where the most precious time is valued: the time you devote to yourself, your feelings, your passions.
The wood panelling, sofas, curtains and free-standing furniture
give it a personality and a sense of refinement, with a distinctly Italian taste.

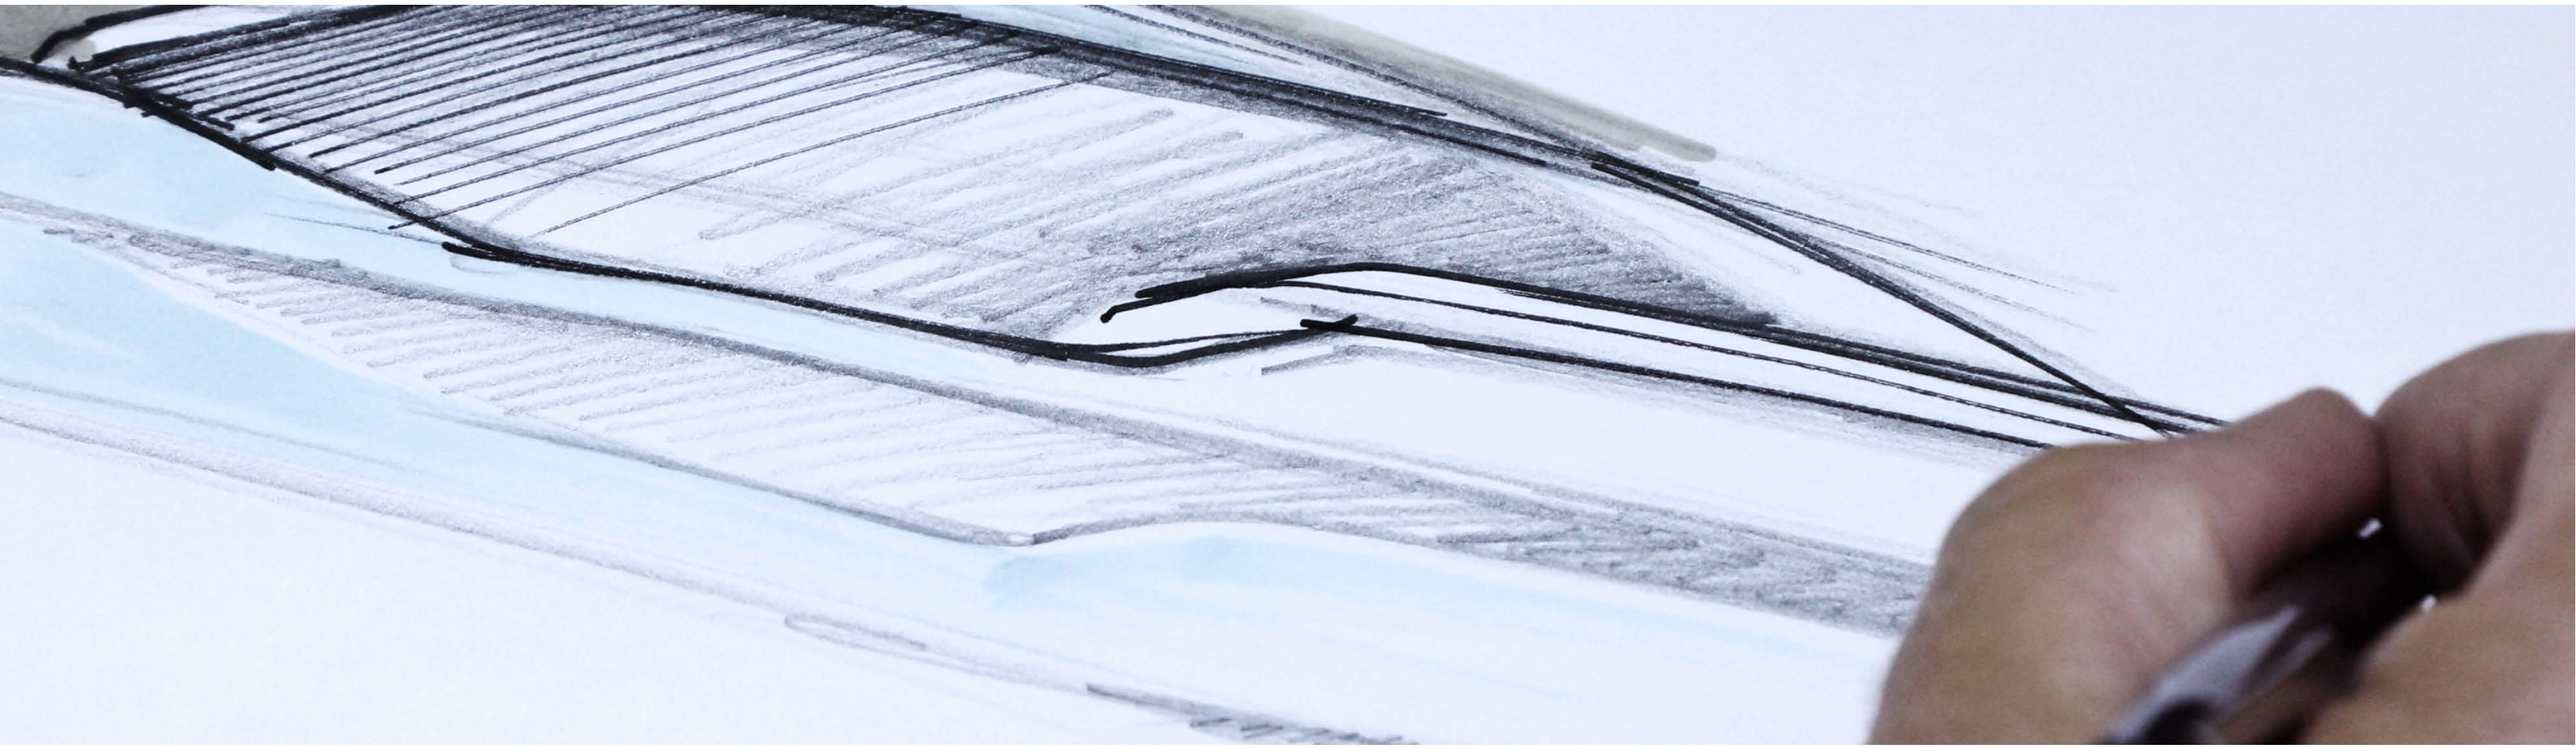
ATELIER CRANCHI

Express yourself by combining standard and optional elements.
With just a few choices, the yacht you have always wanted will take a concrete form.

SETTANTOTTO 78



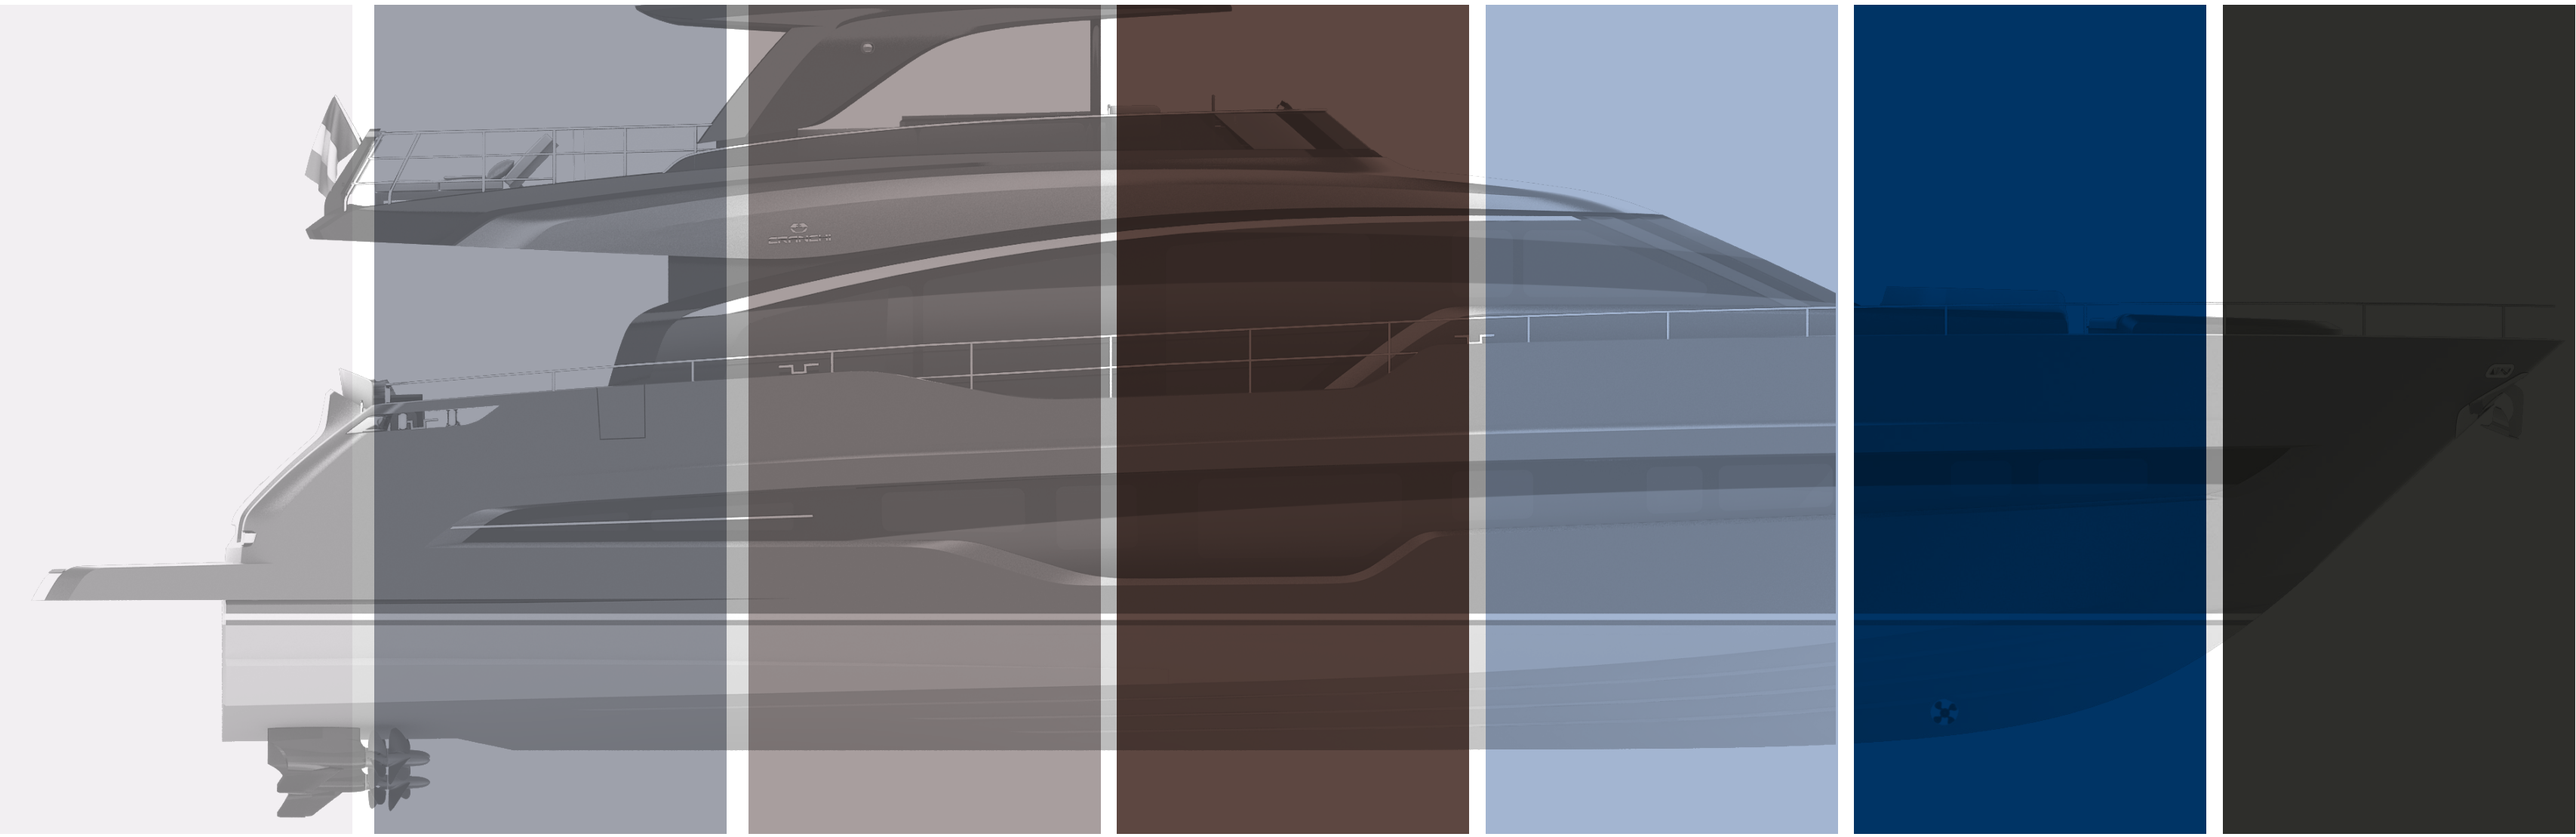
The colour of the hull, the layout choices, the selection of fabrics, materials and essences: the customisation possibilities are endless. Leave it up to your Cranchi Style Manager to create a unique and special Settantotto. Yours.

A WELLNESS AND BEAUTY SPACE,
A MIRROR OF YOUR PERSONALITY,
YOUR PASSIONS AND SUCCESSES.

ATELIER CRANCHI

SETTANTOTTO

Everybody has a favourite colour. Whatever yours is, Cranchi offers a range of unique colours, designed to create harmony between your yacht and its natural element, the sea.



You can choose from a **wide range of exclusive paints,** or, if you prefer a particular colour, we can produce the exact metallic or pearled shade you are looking for, and that colour will become unique, like your Cranchi.

ATELIER CRANCHI

SETTANTOTTO 78

Find your perfect combination.

Whether sporty or luxurious, you can choose the materials and fabrics that best reflect your style and tastes.
The refined features and attention to detail will be the concrete demonstration of the extreme quality of your Cranchi Settantotto.

SETTANTOTTO 78

THE CRANCHI FLAGSHIP MODEL WAS CREATED IN A HIGHLY AUTOMATED FACTORY WHICH FOLLOWS THE PRINCIPLES OF INDUSTRY 4.0.

The entire production process, including the use of a sophisticated mould consisting of two longitudinal sections, has been designed to ensure maximum ergonomics and guarantee the best quality in the finished product, leaving plenty of room for customisation without sacrificing the advantages and repeatable precision of mass production.

THE PROPULSION OF THE SETTANTOTTO IS PROVIDED BY THE NEW VOLVO PENTA D13-IPS1350, THE MOST POWERFUL ENGINE OF THE IPS RANGE.

Compact in its configuration and capable of delivering great power, the D13-IPS1350 combines perfectly with the design of the hull of the Settantotto and the use of light and resistant fibres: this way, the Settantotto ensures lower consumption, greater autonomy, optimal peak speed, reduced vibrations and noise, comfort, reliability and duration.
